

IN THE SPECIFICATION

Please amend the specification as follows:

Replace the paragraph on page 1, between lines 7-8 of the specification with the following:

Such protective casings are for example used for mobile telephones of the Global System for Mobile Communications, or GSM type.

Replace the paragraph on page 8, between lines 14-17 of the specification with the following:

The insert has a shape complementary to that of the stepped rim 28. It is delimited by a horizontal bottom face 57 which is in abutment on the area 32 of the rim 28, and by a top face 59 inclined by the angle  $\alpha$  in accordance with the invention. The insert 56 is thus interposed vertically between the rim 28 and the screen ~~22~~ 14.
